

Quick Attach Work Platforms

Quick Attach Work Platforms - Multipurpose forklift work platforms attach safely and quickly to the forklift through inserting blades into blade pockets and chaining platform to the lift truck. These attachments are frequently utilized to safely and efficiently transfer maintenance personnel. The fork lock or tine has to be engaged in order to secure the platform to the forks rightly. This attachment comprises a checker floor plate platform as well as a long strap along with hook to be able to securely attach the platform to the fork truck. These work platforms are actually constructed of welded steel and powder coated with a blue finish. They have a raising capacity of 1000 lbs.
